Technical details

1] COMFORTABLE AND SAFE

Thanks to the adjustable lock, iPhone 3G/3GS **MOTO HOLDER** for motorbike or bicycle guarantees a stable fastening on any handlebar. The lock mechanism firmly holds the phone, allowing its removal through a simple push button.

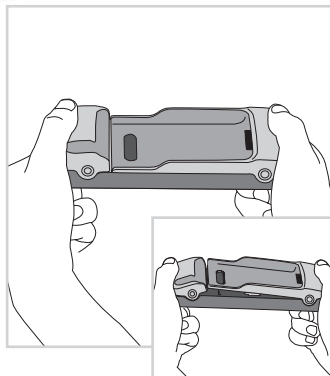

2] WATERPROOF

Thanks to the included waterproof sheath with transparent window, it is possible to use iPhone 3/3GS even in the rain allowing the use of the touch screen display.

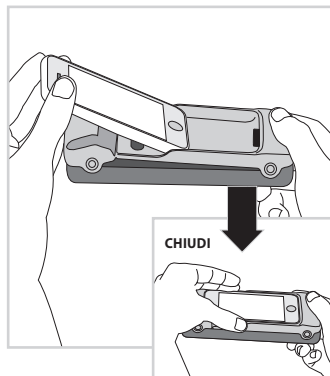

3] CONNECTIONS

The handy openings on the holder allow the connection of headphones and USB-DOCK cable.

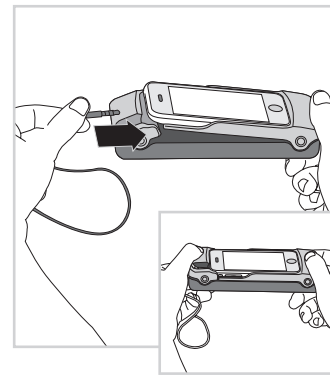

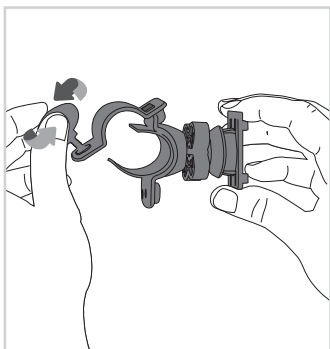

1 - Support opening

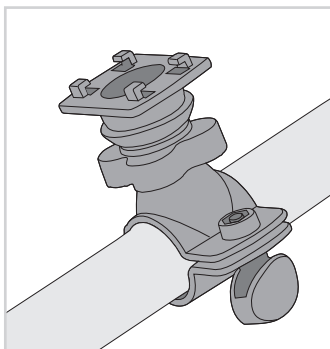

2 - iPhone insertion

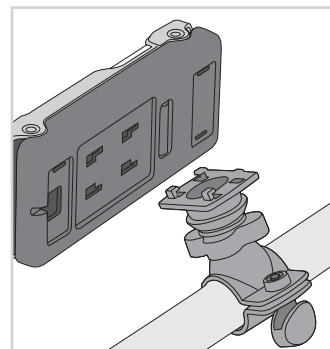

3 - Plug-in and blocking of headset connector

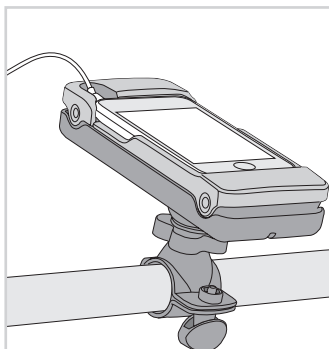

4 - Adjustable mounting system for handlebars

5 - Fixing on Handlebar

6 - Fitting of support in the mounting system

7 - Complete assembly

* The iPhone 3G/3GS MOTO HOLDER can be used also on the bike
